DESKTOPS

Dell Tower shown above. Towers offer more flexibility for expansion but they take up a little bit more space.

Dell Desktop shown below. Desktops don't take up as much space, but you are limited on expanding them.

Both are in the \$350—\$400 range. Can be as low as \$175 if you already have a monitor, keyboard, mouse and just need the CPU.

DELL Latitude C640 – Pentium 4, DVD/CDrw, Play DvD's, Play and Record CD's, WiFi for wireless Internet Access, 512MB memory, 30GB hard drive, Virus, Adware & Spyware Protection, Windows XP - **\$370**

Why Buy Used?

New laptops depreciate and lose their value very quickly. These used Dell laptops sold for \$2,000.00 when they hit the market as new machines just a few years ago.

New laptops come with trial software good for 30 or 60 days. After the trial period ends expect to spend another \$200.00 - \$300.00 purchasing the software license.

DELL

DELL Latitude D600 – Pentium 4, DVD/CDrw, Play DvD's, Play and Record CD's, WiFi for Wireless Internet Access, 512MB memory, 30GB hard drive, Virus, Adware & Spyware Protection, Windows XP - **\$385**
